### 1) **CREATING YOUR COINBASE ACCOUNT**

Haven't created an account at Coinbase yet? No need to worry – we'll walk you through every step.

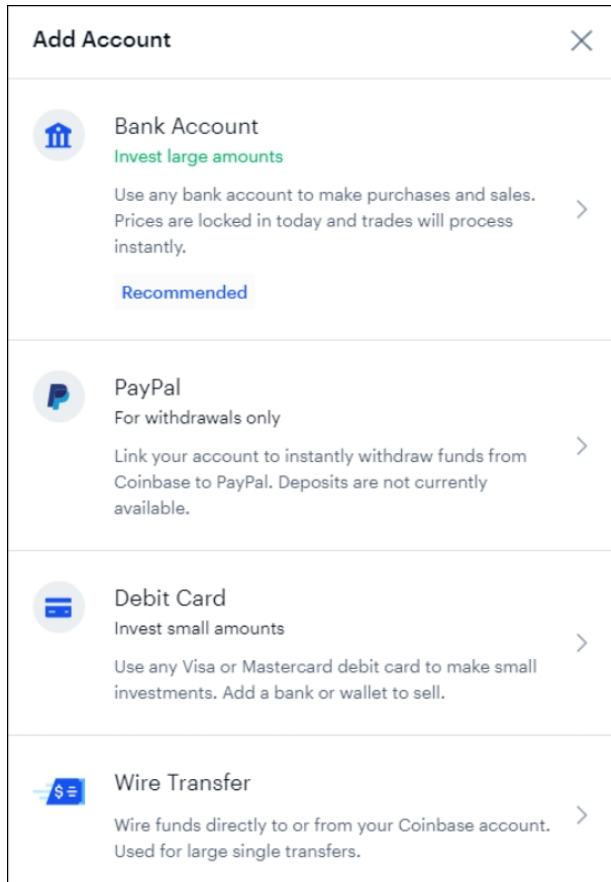

Just head to <https://www.coinbase.com/>, hit **Get Started** and fill out your personal details.

***NOTE: The site will ask what you will use Coinbase for and your source of funds. This info is only for Coinbase to track users, so regardless of what you answer your experience will be the same.***

**Verification codes** will be sent to the email you registered and to your mobile phone.

### 2) **BUYING BITCOIN**

Once your account is verified, you will be shown the option for adding a payment method.

If you don't see that screen, you can scroll down to the bottom of the page and you'll see **'Add a payment method'**.

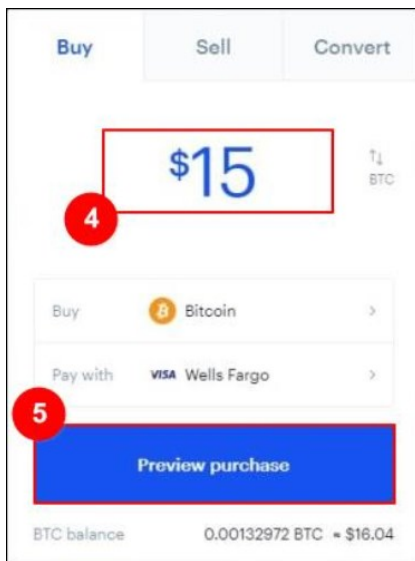

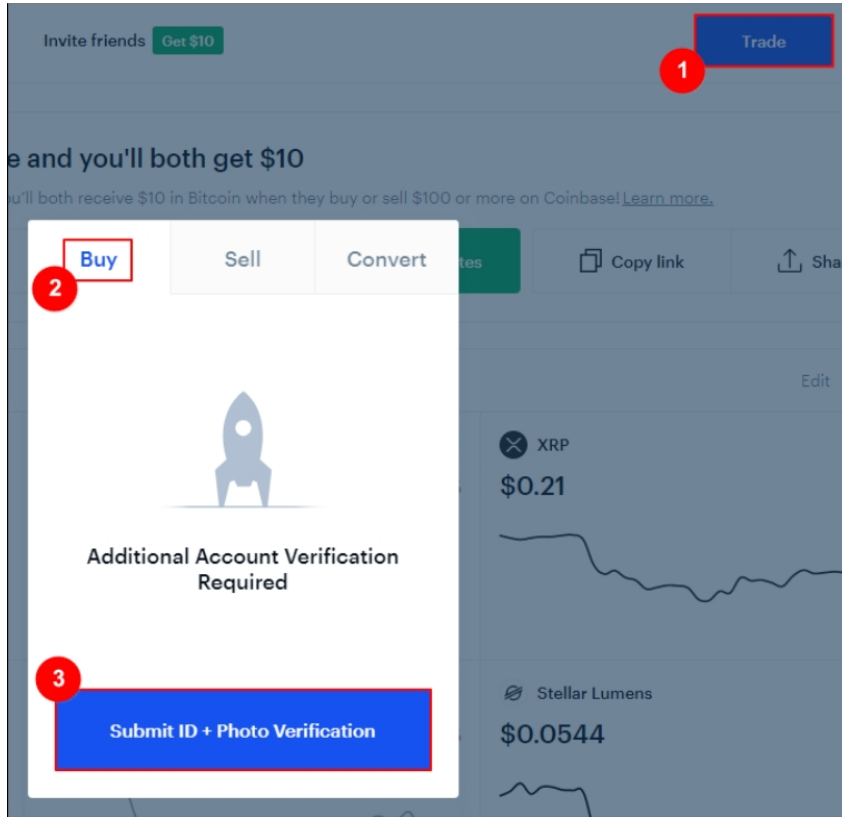

We recommend using Debit Card to buy Bitcoin since this is the fastest method.

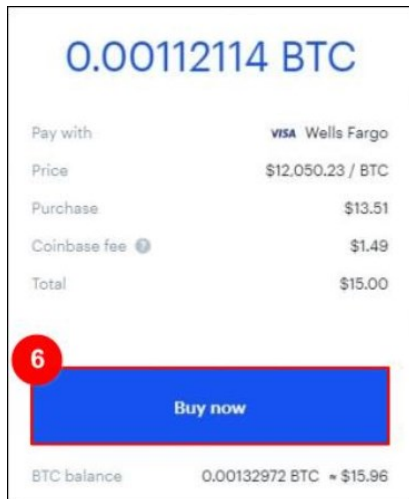

1. Hit **Debit Card**

3. Enter the **card details**
4. Hit **Add Card**

With your card now linked to Coinbase:
