The Gemini platform allows you to deposit and withdraw with ease, while offering some of the highest limits among all exchange wallets. Gemini also features added layers of security to ensure the protection of your funds.

This guide covers:

1. **CREATING YOUR GEMINI ACCOUNT**
2. **FUNDING YOUR ACCOUNT**
3. **BUYING BITCOIN**
4. **DEPOSITING TO JUSTBET**
5. **WITHDRAWING FROM JUSTBET**

1) CREATING YOUR GEMINI ACCOUNT

Haven't created an account at Gemini yet? No worries, it's incredibly easy.

Just head to <https://gemini.com/> hit the **Get Started** button and follow these steps:

1. Under **Personal Account**, press **Get Started**
2. Choose your country/state and hit **CONTINUE**

After the quiz, you can enable 2FA (two-factor authentication).

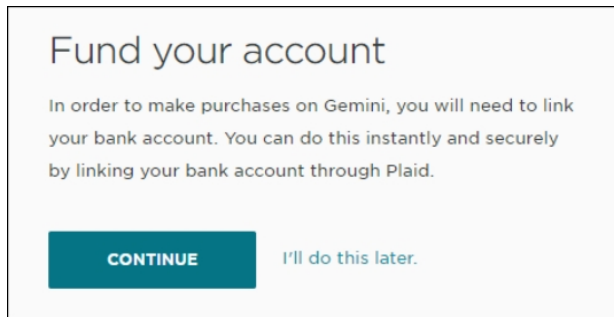

Next, enter your Social Security number and date of birth.

2) FUNDING YOUR GEMINI ACCOUNT

The process of funding your Gemini Account the first time consists of two steps: Verifying and Funding. If you have already verified your account, skip to the "Funding" section.

STEP 1 - VERIFYING

You'll be asked to link your bank account to your Gemini wallet. You can do this right away by clicking **CONTINUE** or hit **"I'll do this later"** and return to this at any time.

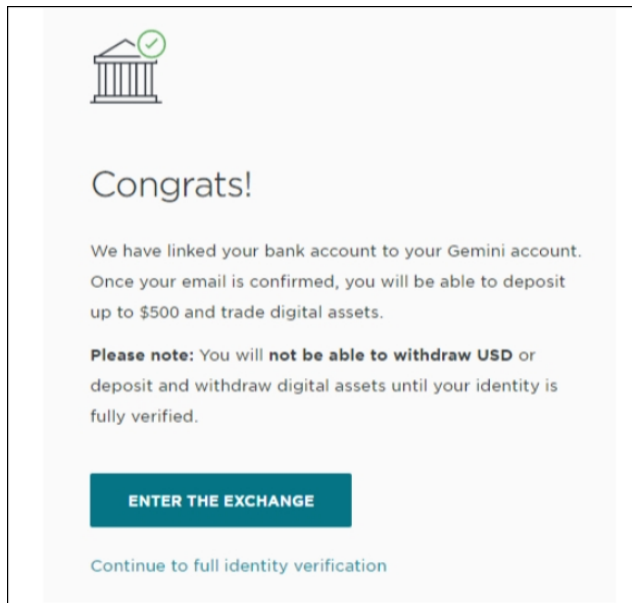

(For the purposes of this guide, let's hit **CONTINUE** to get started right away)

1. Hit the **CONTINUE** button
2. Choose your bank
3. Enter your bank login information
4. Select to receive a security code via text or call
5. Enter the code and hit **SUBMIT**
6. If you own multiple accounts at the same bank, you'll need to pick one

As soon as the network confirms the info is correct, your bank account will be linked.

NOTE: At this point, you can either hit “**ENTER THE EXCHANGE**” or “**Continue to full identity verification**”

- **ENTER THE EXCHANGE** – This takes you to the next screen, where you'll be asked to confirm your email. Once confirmed, you can begin using Gemini immediately but only for deposits up to \$500 (no withdrawals).
- **Continue to full identity verification** – Go here to unlock higher limits and withdrawals by first verifying your identity.

Let's go straight to full verification:

1. Enter your home address
2. Submit a photo of your ID
3. Select the ID type, number and issuing state
4. Hit **CONTINUE TO EXCHANGE**

You'll see the following message from the Gemini team:

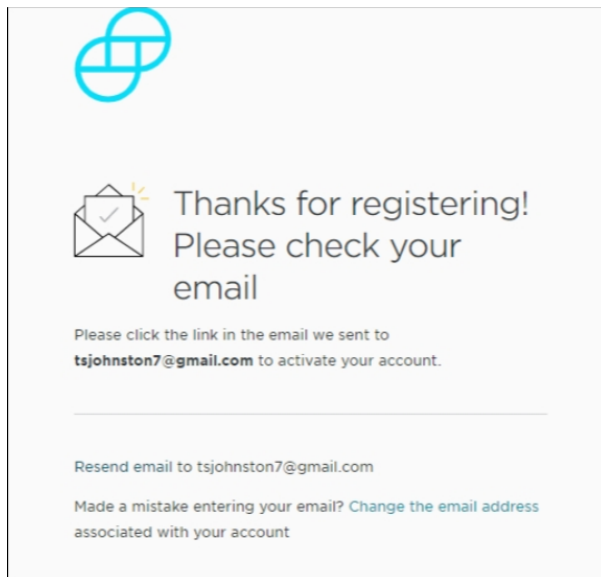

Your application has been submitted to our compliance team. We will contact you via email with the status of your application.

**In most cases this takes less than 15 minutes.*

Now, you'll be on the Gemini main page (the "**Dashboard**") and the first thing you need to do is click on the **Confirm your email** link in the top right corner.

You must **confirm your email** before you can deposit or trade. X

When the Bitcoin arrives to your Gemini account, you can convert it to USD to be transferred over to your bank account.

NOTE: We highly recommend converting the Bitcoin to USD as soon as you receive it. This way you can protect yourself against any possible drop in the value of Bitcoin.

To withdraw back into your bank account, there are two final steps, which are basically reversals of steps taken previously to buy and deposit Bitcoin.

STEP 1 – Convert the Bitcoin to USD

1. Go to the **Dashboard**
2. Select **Bitcoin**
3. Choose **Sell and hit Next**
4. Enter the amount
5. Hit **Review Order**
6. Hit **Place Order**

With the funds now converted to USD, do the following to withdraw your funds.

STEP 2 – Withdraw your USD

1. Hit **TRANSFER** at the top of the screen
2. Select **WITHDRAW FROM GEMINI**
3. Select **USD** as the currency to withdraw
4. **SELECT DESTINATION** (your bank account)
5. **ENTER AMOUNT**
6. **COMPLETE WITHDRAWAL**
